TOWN OF BLAIRMORE

PUBLIC NOTICE is hereby given that a meeting of the Electors of the Town of Blairmore will be held in the Columbus Hall on Saturday, 11th March, 1933, at 9 p.m.

(Signed) W. KNIGHT,
Mayor.

E. D. BATTURUM IN CHARGE AT TOWN OFFICE

Following an order from Edmonton on Saturday last, the town office was locked up until the arrival of E. D. Batturum, auditor, special official appointed by the department of municipal affairs to look after matters until the arrival of Mr. Engle, deputy minister, who is due to arrive this week end.

No explanation has as yet been given for the temporary suspension of A. J. Kelly, secretary-treasurer. The auditor's report, read recently to the council and ratepayers, disclosed a satisfactory condition of affairs.

A meeting of the town council was held on Monday night, with Mayor Knight presiding, and Mr. Batturum in capacity of secretary. At this meeting it was decided to close the meetings of council to representatives of the daily press, and instead to forward to the daily papers of Calgary and Lethbridge copies of minutes. The meeting was largely attended, fully half of whom were not ratepayers of the Town of Blairmore.

Announcement is now made that the adjourned meeting of ratepayers will take place at the Columbus hall on Saturday evening at 9 o'clock, at which it is hoped to hear explanations from the deputy minister of municipal affairs.

MISS CROWDER ENGAGED AS PRIMARY TEACHER

At the regular meeting of the Blairmore Board of School Trustees, held in the secretary's office on Friday night last, ten applications were received for the position to fill the vacancy caused through the resignation of Miss Valetsko, who for the past couple of years has served very efficiently as primary teacher. Miss Valetsko's retirement from the staff was occasioned through her decision to forsake single blessedness. Her work was of such a nature as to warrant special mention being made by the inspector with notation on her report "very good." In consideration of her good services here, the board were unanimous in granting her a special bonus of \$15.00. Since Miss Valetsko's retirement, the room has been in charge of George Kafoury, and other substitute teachers, who were applicants for the position.

Matter of choice devolved down to, between Miss Florence North of Blairmore, and Miss Bessie Crowder, also of Blairmore, but who has been teaching in rural schools for the past three years. It was felt by the majority of the board that Miss Crowder, with larger experience, was entitled to this position, and Chairman Sidney forthwith cast his deciding vote in her favor, salary to be the same as Miss Valetsko. The chairman and secretary undertook to take the matter up with Inspector Brennan with a view to providing a school for Miss North.

Miss Crowder is an orphan, her parents having died in Blairmore some eight or nine years ago. Her two orphan brothers are living here, being cared for by Mrs. Tinline, foster mother, with Messrs. W. J. Bartlett and W. H. Chappell as guardians.

Upon resolution, the board decided to grant free supplies, except text books, to all rooms up to and including Grade VIII. In this connection, it will be necessary to carry quite a large stock of scribbles, pencils, chalk, erasers, etc., and a committee of the board was appointed to make a survey of stocks held be local stores, with a view to purchasing same at invoice price, plus a margin of ten per cent. That committee is composed of Messrs. Bannan, Horne and Principal McPherson.

Secretary was instructed to ascertain quantity of caragana plants required, so that the offer of the department of agriculture could be availed of.

A number of small accounts were passed for payment.

Present were: Chairman Pinkney and members S. G. Bannan, A. Basetti, R. Horne and R. Oakes.

ORIGINAL "POTASH" IN "THE HEART OF NEW YORK"

George Sidney, the comedian, who left the legitimate stage to star in pictures, was the first artist signed by Warner Bros. for the big comedy drama production, "The Heart of New York," which comes to the Orpheum, starting Monday.

Joe Smith and Charlie Dale, of the old, Avon Comedy Four, have the roles they played originally in the stage success, "Mendel, Inc." and one of the leading roles in the story is that of Mendel, assigned to Sidney, famous character comedian. He was the original Potash, of Potash and Perlmutter, on the stage.

F. A. Anglin, former chief justice of the Supreme Court of Canada, died at Ottawa on March the 2nd, aged sixty-eight.

TEACHERS PRESENT MISS VALETSKO WITH PARTING GIFT

Prior to the departure of Miss Barbara Valetsko for her home in Clearholm, the members of the local teaching staff showed their appreciation of her association in the form of a well-chosen gift.

The presentation, which took place in the staff room of the school, was made by Principal D. Macpherson and was accompanied by a terse speech in his inimitable style.

As guests of the staff, there were present Mrs. D. Macpherson, Mrs. R. Racette, Mrs. S. White and Mrs. D. F. Macalister.

After a dainty tea, served by the refreshment committee, the members and guests, one and all, while regretting her departure, voiced expressions of felicity to Miss Valetsko for the happy event which is to happen in the near future.

ST. PATRICK'S ENTERTAINMENT

The sixth annual St. Patrick's entertainment, under auspices of St. Anne's Catholic church, will be staged in the Columbus hall on the nights of Friday and Monday, March 17th and 20th.

The programme will consist of a comedy in three acts by grownups, entitled "Blundering Billy," and tableaux by the children, entitled "Mother O' Mine."

This annual event is always eagerly looked forward to, and an exceptional treat is in store at this time.

As on former occasions, it is expected that the play will be repeated at other towns in the district or dates to be decided later.

ATHLETES ASSEMBLE

Sports celebrities of days past were gathered together to take roles in "Madison Square Garden," featuring Jack Oakie and Marian Nixon, now showing at the Orpheum.

Among them were Jack Johnson, Tom Sharkey, Billy Papke, Stanislaus Zysko, Mike Donlin, Ted Sloan, Jack Kearns, Mushy Callahan, Tom Kennedy, Teddy Hayes, Spike Robinson and Tammany Young.

BRIEFLY TOLD**

Possibility of using surplus farm crops of the United States for the production of alcohol as an aid to agriculture is being studied at the request of President-Elect Roosevelt.

George Bernard Shaw viewed the great wall of China from an aeroplane at a height of 8,000 feet, but had nothing to say regarding his experience.

Hon. Vincent Massey, former Canadian Minister to the United States, will be given the honorary degree of Doctor of Laws by McGill University, Montreal, at Convocation on May 25.

So many automobiles have been pawned in Paris, where the municipality runs the pawnshop, that a new garage to accommodate 2,000 cars is being built.

Alberta government does not favor appointing a commission to survey taxation, Premier John Brownlee informed a delegation from the Alberta branch of the Canadian Manufacturers' Association.

After many years' public controversy over the divorce question, the Chief Justice of Trinidad has granted the first divorce in the island's history. The hearing took only forty-five minutes.

John Robert King of Vancouver, prominent figure in the mining, fishing and lumbering industries of the Pacific Coast in pioneer days, died aged 80. He was born in Madoc, Ont., and came to British Columbia in 1876.

Prof. August Picard, explorer of spaces 10 miles above the earth, is convinced he can build an aeroplane capable of flying through the stratosphere at 500 miles an hour, if he were furnished \$500,000 for the purpose.

The Japanese Government through the embassy at Washington, issued a 6,000 word statement in defence of her military activities in Manchuria and her actions at Geneva, in the face of condemnations on the part of the League of Nations.

Fish Cargo By Air

Former Two-Day Trip Now Takes Half An Hour

Within half an hour after white fish are caught in the lakes of northern Manitoba they are delivered to a point by aeroplane on the Hudson Bay Railway, 35 miles away, for transit from this point by rail to cities in Canada and the United States where they are in demand. Formerly the 35-mile journey by horse outfit and tractor took two days over rough trails.

The inland fisheries of Canada are among the country's most valuable assets. The fish caught in large quantities for the commercial market in Manitoba come from Lake Winnipeg, Lake Winnipegosis, Lake Manitoba and the smaller lakes. White fish and pickerel are the chief fish caught, but pike, tullibee, gold-eye and several other varieties are plentiful.

It is strange that many of those alarmists who foresee the destruction of all culture by machinery use the radio to broadcast their fears, read their speeches from a typewritten manuscript and then ride home in a taxi.

**Artists Very Seldom
Have Beautiful Hands**

Photos Show Them Strong and Capable But Not Decorative. The idea that hands exhibit more character than faces, and that artistic hands are invariably soft, slender and graceful, is nothing but a snare and a delusion, Mrs. Alma Reed says. Mrs. Reed opened an exhibition in New York of more than 150 photographs of hands of famous men and women, actresses, prizefighters, writers, painters, politicians and housewives.

"The hands of famous actresses," she said, "are almost universally beautiful. Long, slender fingers, meticulously cared for nails and smooth contours are characteristic. Their hands are decorative, as they should be. But when it comes to musicians, writers, sculptors, male or female, the rule does not hold."

"Their hands are apt to be strong-capable, yes, but not necessarily beautiful."

Pulp and Paper Industry

**Operated On Sound Economic Lines
It Would Regain Former Place**
When prosperity returns, it should be the task of both Government authorities and those who direct the destinies of the pulp and paper industry to work for an effective control of development, in order that the evil of overproduction may be avoided and the industry allowed to expand in response to normal demands not to artificial stimulus. If it is thoroughly rehabilitated and operated on sound economic lines, there is no reason why it should not regain its former place, but the danger from the American schemers is written plain.—Montreal Star.

BEST FOR ADULTS, TOO

Recipes For This Week
(By Betty Barclay)

LUNCH BASKET PINWHEELS
1 cup flour.
2 teaspoons baking powder.
2 tablespoons butter.
1/4 teaspoon salt.
1/2 cup milk.
2 tablespoons sugar.
1/2 teaspoon orange juice.
Grated orange rind.
Mix and sift flour, baking powder and salt, rub in one tablespoon butter, or other shortening, and moisten with milk. Roll thin, spread with remaining butter, sprinkle with sugar, mixed with orange juice and rind, and roll up like a jelly-roll. Cut in slices and place, cut side up, in buttered muffin-pan. Sprinkle with remaining sugar, and bake in a hot oven.

HAM MOULDS

1 cup cooked ham, chopped fine.
2 tablespoons butter.
1/4 cup stale bread crumbs.
1/2 cup milk.
1 egg.
1 teaspoon sugar.
Salt and pepper.
Melt butter. Add bread crumbs and milk. Cook five minutes, stirring constantly. Add ham, egg slightly beaten, and seasonings. Pour into buttered custard cups. Set cups in pan of hot water. Bake in a moderate oven until firm. Serve with a white sauce.

World's Brains Still Busy

Someone Is Always Thinking Of New Things For Invention
In 1943, a current magazine article reveals, an official of the United States patent office resigned because "Everything possible had been invented."

Since this gentleman left his post in the snug belief that the world was a finished product, the world's brains have invented the sewing machine, the typewriter, the electric locomotive, the air brake, wireless telegraphy, internal combustion engines, airplanes, cash registers, incandescent lamps, motion pictures and about a million and a half other devices which we now consider commonplace.

Milton sometimes has had more than 300 words to a sentence in his writings.

SUNDAY SCHOOL LESSON
MARCH 13

**JESUS MINISTERING TO THE
MULTITUDE**

Golden Text: "The Son of Man came not to be ministered unto, but to minister, and to give His life a ransom for many."—Matthew 20:28.

Lesson Text: Mark 8:1-9.

Devotional Reading: Isaiah 53:1, 2, 5-10.

Explanations and Comments
A Prophet Not Without Honor Save In His Own Country, verses 1-6.
"You remember how, in His Holy War, John Bunyan stations one old Mr. Prejudice, with fifty deaf men under him, at Ear-Gate, to defend that particular gate into the citadel of Mansoul against the assaults of Prince Emmanuel. Well, it was Mr. Prejudice who stopped the ears and hardened the hearts of these Nazarenes against the appeals of Jesus that day."—J. D. Jones.

The death of John the Baptist was a turning point in the life of Jesus. The mission of Jesus now fell assured that they could compass his death without opposition, since no protest came from the people at this dastardly deed.
The Return of the Twelve, verses 30-32.—We might consider the preceding topic, verses 14-29, as an interruption of the narrative, for verse 30 continues the story left at verse 13. The word "apostle" means literally "one who is sent forth, a messenger." The Twelve had been sent forth on their mission, and now on their return Mark calls them apostles, for the first and only time. From the various tones and voices of the returned eager to report to their Master, we learn that they had done well. "They had success and what failures had been their in their apprenticeship, as it might be called."

"He sent men out to preach the living Aflame with all the ardor of His fire; They spoke the truth, wherever they went; But back to Him they brought their hearts' desire;

They turned to Him through all the lengthening days With each perplexity of life or creed, His deep reward, not that they spoke His praise, But that they brought to Him their human need."

—Hildegard Hoyt Swift.
Jesus noted the disciples' need of rest as well as of opportunity for uninterrupted talk with him—for where they were many coming and going and they had no leisure so much as to eat and He counselled their going over to the quiet uplands on the other side of the lake. This they did.

A Featherweight Airplane

Slow-Moving Machine Is Remarkably Easy To Handle

Britain sees remarkable results achieved with a slow-moving, featherweight airplane. This new type, which may indicate the coming of "flying for all," is designed by C. H. Lowe-Wyde. A woman beginner recently made a flight after half an hour's instruction, the instructor giving her hours in the air the pupil was able to pass the tests for her "A" certificate. The plane carries only a 6 horsepower motor engine. Its top speed is 50 miles. But the big factor is that it lands at the "standstill" speed of 18 miles an hour.

Things don't seem half as expensive when you can charge them.

CORRESPONDENCE.
TO STAMP OUT DEPRESSION

The Editor:—In your issue of February 24th, Mr. Colin H. Burnell outlines his plan to stamp out the depression.

Many plans might be devised to remove the present unfortunate economic condition, equally as effective as the one suggested by Mr. Burnell, but the difficulty in each case is to have them adopted.

Mr. Burnell believes that our present economic system is antiquated. By that, he states his belief in the existence of system, and implies that it is obsolete.

The system we have, however described, if operated intelligently, would bring us out of this morass, without any further complicated schemes.

Mr. Burnell's plan commences with the appointment of a number of officials. These officials would buy "cash tickets" for double their face value, giving in exchange "certificates," which would again be exchanged for real cash, after stamps, bought from these officials for real cash, had been affixed to the "certificates," raising its face value to six per cent above its original face value.

The charge of six per cent might pay the expense of the organization of officials, or it might not. Some present government would have to stand behind with real cash.

The present currency system would not be eliminated. Dominion notes and coins, bank notes and private cheques would still be valid, and while the producer would be glad to get a piece of real cash, the "certificates" would be less eager to take it, good to purchase a stamp to make good. Business men generally would prefer real cash.

If the people are so short of real cash, from where would the supply of real cash come, with which to purchase the stamps?

Mr. Burnell states that this system is already in operation. He might have quoted the opinions of those who have used the system. Dr. Irving Fisher would have approved the plan. As a matter of fact, this is the plan he is supposed to be offering as a solution.

There would appear to be one real difficulty. When a storekeeper was offered a bill to change, would he be inclined to offer his customer one of those "certificates" as part of the change? Those handling the "certificates" would have to total up the value of the stamps affixed each time to determine the present face value.

With this principle in general, it is stated that the stamps should be affixed at stated periods, one each week, at a bank, and that money should circulate. In that case, if the "certificates" should be transferred from one person to another, it would not be fair that the last man should be obliged to put on the stamp.

The "certificates" would be almost certain to pass through the store into the banks in deposits. Would the banks be expected to affix stamps on the date of all "certificates" in their possession?

Mr. Burnell says his plan also embodies the principle of relating currency to commodities. Currency is always based on the exchange of all surplus commodities always has been, always must and will be.

It is hoped that Mr. Burnell will examine some of the difficulties of his plan, and will attempt to simplify them.

There are far simpler plans to escape from the present economic distress if the human race would adopt them.—C. C. Stuart, Bruno, Sask.

Tired Of Depression Talk

Woman Mining Recorder Returns North Where People Do Not Grumble

Tired of talk of depression which she has continually encountered in the cities, Mrs. F. Muncester, British Columbia's only woman mining recorder, started the return to Squaw Creek, near the boundary of the Yukon and Alaska. "At Squaw Creek," she says, "things were never exactly prosperous, but folks take things as they are and never grumble. Why, they don't even know there's a depression. Things go on just the same."

Mrs. Muncester took in a team of sleigh dogs and supplies and set plans to make the trail to Squaw Creek before the ice thaws. Her goal is reached by way of Haines on the United States side and Pleasant Valley, a former Mounted Police outpost.

Offers Great Possibilities

Diesel Engine Travels Quicker With Small Amount Of Fuel

Flashing over the rails at 65 miles an hour, the first Diesel electric train ever used on an English main line had a successful trial on the 113-mile run from London to Birmingham.—Five minutes ahead, putting clouds of smoke and steam, sped the regular London-Birmingham flier, but the Diesel train travelled just as fast and purred along smoothly and almost noiselessly. It required only 25 gallons of fuel, costing a total of seven shillings (about \$1.20 at current exchange) for the journey.

The trip opened starting possibilities for the hard-pressed British railway companies, which have been keeping to steam for a century because of the cheapness of British coal. Recently the Southern Railway tried a new departure, electrifying the main line from London to Brighton, but at a heavy initial cost and after three years' work.

Not only is the coal industry worried by the success of the Diesel train but the advocates of electrification are beginning to wonder whether the Diesel storage battery system is not cheaper and better fitted to British conditions.

Made Punishment Fit Crime

Chairman Of Blue Star Line Had Ideas About Justice

Lord Vestey, the venerable chairman of the Blue Star Line, who is celebrating a 75th anniversary, has a decided and exquisite notion of making the punishment to fit the crime. Some time ago his gardener brought two boys to him who had been caught stealing from the Blue Star Line, and he was celebrating a 75th anniversary, has a decided and exquisite notion of making the punishment to fit the crime.

WHAT the Long Eared Owl, fierce as he looks, is one of the farmers' best friends? He has a great liking for field mice and devours thousands of them every year. As the picture shows, life is quite a serious thing with the Long Eared Owl and that when he is out for business he evidently means it.

SHE WAS GETTING FATTER

Now Down To Normal

"I was putting on flesh very rapidly," writes a married woman, "and after suffering from constipation, and was very lively. Three months ago a friend advised me to take a teaspoonful of Kruschen Salts in hot water every morning. I have kept this up regularly ever since, although I have been down to my normal weight (120 lbs.) for several weeks. I never felt better in my life, and I intend to carry on with Kruschen always. Several of my friends have remarked how slim I was getting and how well I was looking. After my having told them how it was done, they are doing the same." (Mrs.) D.H.

Overweight arises frequently because the system is loaded with unexpelled waste, like a furnace choked with ashes and soot. Allowed to accumulate, this waste matter is turned into layer after layer of fat. The salts in Kruschen assist the internal organs to throw off each day the waste and poisons that encumber the system. Then, little by little, that ugly fat goes—slowly, yes—but surely. You feel wonderfully healthy, youthful and energetic—more so than in your life!

FREE TRIAL OFFER

If you have never tried Kruschen—try it now at our expense. We have without cost made you special "GIANT" packages which make it easy for you to prove the value of Kruschen. Ask your druggist for the new "GIANT" 75c package.

This consists of our regular 7c bottle together with a separate trial bottle—sufficient for about one week. Open the trial bottle first, put it to the test, and then, if you are entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it back. Your druggist is authorized to return your trial bottle immediately. If you are not satisfied, we will refund your money. Write to: Kruschen Laboratories, Ltd., 1000 University Ave., Toronto, Ont.

HEART OF THE NORTH

WILLIAM BYRON MOWERY

(WHO Series)

Copyright by William Byron Mowery

CHAPTER VI—Continued

A question came from Joyce: "He and—Elizabeth—have decided definitely, then, Bill?"

"Yes. She's waiting for him to come for her or send for her. They've made plans to be married in Edmonton and have their honeymoon in the Selkirk and then go on over to Victoria."

Joyce asked one last question. She asked it calmly, without faltering or even pausing on the precipice edge.

"Did Elizabeth say that, or did Alan?"

"Alan said it. I overheard them, that night he left. They planned it together, then, in his cabin."

Joyce was aroused by old Dad Pence calling for her. Raising her head from her arms, she looked around. Gropingly she realized that she was there on the jutting rock, numbed with cold—with a cold that was more than physical.

Dawn had come. The dark hours had passed. It took her moments to realize. Time had stood still for her since she told Bill good-bye.

Before going up the river bank she had the presence of mind to go down to the water edge and bathe her face and hands and smooth back her hair. She went back to the trading store with old Pence, and prepared breakfast for him. Over his birch-mat

pipe old Pence began whittling again at the "story-stick" he was carving these days. The stick was a long-standing ambition of his, for with his razor-keen, steel-bladed knife, he was carving the story of his life. And he was going about it in earnest, carving steadily every day. It was as though he had some dim fore-knowledge of the black wings hovering—a warning to hurry.

Holding Joyce's preceding paleness and her exhaustion, he bade her, "I'll now get to go on a rest, gal. I'll tend to 'th' furs this mornin', if anybody comes."

Joyce went into her room. It seemed so cold; she could not get warm; the chill seemed to have pierced her through and through. She kindled a fire in her small sheet-iron stove and put in wood, and then lay down on the bed.

From the dresser Alan's picture was looking down at her. She did not glance away but looked at it steadily, as she lay there so motionless and still.

The exhaustion that had drained her had left her very quiet of mind. She could think clearly, in thoughts precise and rational.

You fought this battle, Joyce, and you won it; and then you handed the sword back to your enemy and gave him power over you again. When Bill told you last fall of Alan's engagement—do you remember the heartbreak of those weeks, Joyce? You finally rose above it, you conquered. But then you permitted yourself to hope again. When Alan merely came past here on a patrol, after staying away from you all winter, you went wild with hope.

Last night Bill came to you once again; and after he left, you collapsed there on that rock. Joyce, don't lay yourself open to agony such as that. You must forget Alan Baker. You must, you must! You cannot turn this way or that; you cannot evade it; you must walk that path. You must never again look back. You have been punished for looking back, and your punishment has been terrible. In self-preservation you must forget Alan Baker.

As she lay there gazing up at Alan's picture and seeing her coming so clearly, it seemed to Joyce that if she could destroy his image there on the dresser, if only she had the courage to do that, it would be a symbol of destroying his image in her heart.

After a little while she got up from the bed, and going over to the dresser, began taking out of it all of Alan's letters to her. They dated back across six years, addressed to her here, at her college, at Ottawa—all of them carefully treasured, back by pack they went into the stove.

There was good augury for Joyce in the firm and unhesitant way she set about burning them.

He had given her more than a few presents: a costly old-fashioned lavallière which had been his mother's; a miniature horse chest of India-ink kerchiefs which had been the envy of her college friends; a gold-and-ivory hunting knife; a wrist watch for graduation present, and a dozen less expensive gifts. Joyce laid aside the lavallière to send to Elizabeth; but the other gifts she destroyed by fire. She took his picture from the dresser, and burned it.

Afterwards she sat by the table writing a long letter to her bureau chief in Ottawa, telling him frankly about her father, her hope to see her father vindicated and then to bring him over to Ottawa with her; and asking him if his former promise of a position whenever she wished to return was still good.

At noon, hours later, when old Pence looked in, he was pleased to find her plunged into a dreamless sleep. The secret worry he had noted on her face this last week seemed to have gone now. Her features were pale, but there was a look of peace on them, of some strange spiritual peace at heart.

CHAPTER VII

By Lone Camp Fires

That gray dawn when he said good-bye to Joyce at Fort Endurance, Baker set off alone on a journey of a thousand miles. Instead of heading northward toward the "Red Assin," where the band was hiding, he turned his canoe prow directly away from them and started south, up the Mackenzie. He did not delude himself about his plan. It was little better than a desperate gamble, and he knew it. But the usual man-hunting methods were useless against those criminals; and his plan was the last thing in the world they would be expecting.

By travelling in his own motor canoe, depending entirely on his own resources, he expected to cut ten days from the fastest time of the fur-company boats.

In those lonely hours, as he stared in reverie at the shimmering pine

NO MORE EXCUSES FOR STOPPED-UP DRAINS

Gillet's Lye dissolves clogging grease...

JUST sprinkle Gillet's Pure Flake Lye down your drains and toilet bowls each week. Use it full strength—this powerful cleanser cannot harm enamel or plumbing. Grease and dirt dissolve like magic... germs are killed... odors banished... Your drains run free and clear.

And Gillet's Lye in solution has many uses in your kitchen. One teaspoonful dissolved in

a quart of cold water makes short work of greasy pans, tracked-up floors and other tiresome cleaning tasks.

Use Gillet's Pure Flake Lye for all your household cleaning. It saves hours of hard work. Ask for it by name... at your grocer's.

GILLET'S LYE

Free Booklet

The Gillet's Lye Booklet tells you how to avoid clogging drains by using this powerful cleanser and disinfectant for dozens of heavy cleaning jobs. Also contains full directions for soap making, disinfecting and other uses on good form. Ask for free copy, Standard Brands Limited, Fraser Avenue & Liberty Street, Toronto, Ontario.

Never dissolve lye in hot water. The action of the lye itself heats the water.

Grasshopper Menace

Steps Being Taken Now To Meet Insect Invasion

The prairie provinces are facing invasion. In Manitoba, particularly, will the brunt of battle be felt this summer. The enemy forces in that province alone will number at least 4,350,000,000,000. To combat that force "munition factories" in Manitoba are working day and night and a conference between provincial and federal strategists was held in Winnipeg on March 2 when the most intensive plan of campaign ever drawn up in Canada was decided upon.

The enemy? Just the humble but destructive grasshopper.

The munitions? Technically they are known as "bait," a combination of "half and half" sawdust, bran and sodium arsenite.

The conferees? Leading entomologists headed by Norman Cridde.

This year Manitoba is preparing for one of its worst invasions in certain areas. It will cost the province in the neighborhood of \$150,000 to wage a battle in an infested area estimated at 1,000,000 acres.

Incidentally the introduction of sawdust in the bait is a Canadian discovery which saved \$40,000 last year and which is now accepted in all parts of the continent.

Made Complete Circle

Christmas Present Got Back To Sender After Two Years

A woman in Kansas City made an apron a fancy affair of ribbon and lace and organza—and sent it to her cousin in Illinois for Christmas in 1929.

Last year she got back the very same identical apron from an old school friend in California. It was in fine condition and the woman knows just where she can place it another year but she would like awfully to know who got it in 1930 and 1931.

A device that "tastes" the acidity or juice character and indicates whether apples, oranges and other fruits and vegetables are ripe, has been invented.

Little Helps For This Week

"And he shall be like a tree planted by the rivers of water, that bringeth forth his fruit in season; his leaf also shall not wither, and whatsoever he doeth shall prosper."—Psalm 1: 2, 3.

The wind that blows can never kill The tree God plants; It bloweth east, it bloweth west; The tender leaves have little rest. But any wind that blows is best. The tree God plants Strikes deeper root, grows higher still; Spreads wider boughs, for God's good-will Meets all its wants.

It is a fatal mistake to suppose we cannot be holy except on the condition of a situation and circumstance in life as shall suit ourselves. It is one of the first principles of holiness to leave our times and places, our going out and our coming in, our wanted and our goodly heritage entirely with the Lord. Where He has placed us, there we will glorify Him.—T. C. Upham.

Only Three Racers Left

Fewer Racers Grown Rarer Skaters Going Around World

Four years ago 632 men left Los Angeles, California, on roller skates to race round the world and win a prize of \$14,000. Seventy-three are dead. All but three of the remainder have stopped.

The three men recently left Camden, New Jersey. They must sleep upright in chairs, eat no meat, fish, or dairy produce, abstain from smoking, swim daily, and sleep for at least six hours.

A device that "tastes" the acidity or juice character and indicates whether apples, oranges and other fruits and vegetables are ripe, has been invented.

THE RHYMING OPTIMIST

By Alvin Michaels

TO ONLY A FEW

To only a few it is given to know That all roads lead winding, by swift ways or slow, To the place of the dream which they glimpsed long ago. To the place of the dream that has made their hearts strong To endure through dark seasons of evil and wrong For the sake of the hope that is sweeter than song.

To only a few it is given to find That, after the struggle is left far behind, The paths not understood were not always unkind; For wisdom and patience and power and trust And the will to be just though all earth seem unjust Come but slowly to flower, as the rose from the dust.

As the rose from the dust, as the lily from mire, So they blossom, those spirits that greatly aspire, Those souls that are quickened by noble desire, Till at last what was dream stands revealed there as true In the heart of a world that is fashioned anew. To a few this is given, to only a few!

Royal Family Likes Snaps

Nearly Every Member Uses Camera When On Holidays

There is scarcely a member of the Royal Family who does not carry a camera on holidays. From the King and Queen downward each takes the liveliest interest in snapping, and not only in that, for they also like to develop their own snaps.

The Duke of York is the champion photographer of the Royal people, and is the proud possessor of an album of delightful pictures depicting the Duchess and the two little Princesses.

Jamaica oranges, shipped to Calgary via the Panama Canal and Vancouver, were marketed in the Alberta city for the first time in January this year.

Get Rid of That SORE THROAT!

Any little soreness in the throat grows rapidly worse if neglected. Crush some tablets of Aspirin in some water, and gargle at once. This gives you instant relief, and reduces danger from infection. One good gargle and you can feel safe. If all soreness is not gone promptly, repeat. There's usually a cold with the sore throat, so take two tablets to throw off your cold, headache, stiffness or other cold symptoms. Aspirin relieves neuritis, neuritis, too. Use it freely; it does not hurt the heart.

COMMUNIST MONEY

Mr. A. A. Heaps, the Labor member for North Winnipeg, will scarcely be suspected of high Toryism. What he has to say about Communists in Canada must be accepted at its face value even by the most extreme radicals. After declaring in the House of Commons debate last Friday that the C.C.F. is not Communist, he went on to say that there are probably from 5,000 to 10,000 Communists in his own city of Winnipeg, though he did not estimate the total for the whole country. Mr. Heaps declared that, in addition to numerical strength, the Communists have a certain amount of financial strength.

"I must confess that I have not the faintest idea where they get all the funds of which they are possessed. Only recently in Winnipeg, when about twenty of their associates were committed for trial on a charge of rioting, they were able to place in the courts of that city the sum of \$20,000 in cash as bail for those individuals. Where they got that money I really cannot say."

"In addition to their financial strength they are possessed of many buildings in various parts of the Dominion, and again I do not know where they obtained the funds to purchase those buildings. In my constituency they must own about six cliff-rail buildings where they hold their meetings, where they gather together, where they have social events, and where those buildings are usually paid for and maintained out of the funds owned and controlled by the organization."

In the view of the Labor member for North Winnipeg, the real attack of the Communist party against Section 98 of the Criminal Code is not upon that clause which infringes upon the right of free speech or of assembly, but against that clause which they feel might be invoked against them, and whereby they might lose the property which today is nominally or actually in their possession. All of which goes to justify the action of the Federal Government in standing firmly behind Section 98, and the campaign of the Ontario attorney general and the Toronto police force against the Communists. What we are surprised at is that the organization is permitted to continue in the ownership of so many buildings in Winnipeg, Toronto and other Canadian centres—obviously bought with money from Moscow—and to use these buildings as centres of conspiracy against the established institutions of the Dominion.

In the course of his speech, Mr. Heaps stated that the Communist party has control, directly or indirectly, of a number of organizations. Affiliated with them, he said, are the Canadian Labor Defence League, the Workers' Unity League, the Farmers' Unity League and the Workers' and Farmers' Educational Association. Speaking in the debate, Mr. G. B. Nicholson, the member for East Alberta, contended that the money which these people are spending in the City of Toronto, in Northern Ontario, in Kirkland Lake, in Sudbury, in Copper Cliff and at Hearst, to bring about public disturbances, comes from Russia. These people advocate the use of force. The speaker went back to the Communistic revolution of 1919 in Winnipeg, to show that, in the language of the One Big Union's general organizer, the practice of these agitators is to take advantage of economic distress to inflame the workers; to promote unsuccessful strikes; and to destroy organized labor as it exists today because it is

A REMINDER

The recent attempt on the life of President-elect Roosevelt by a half-breed foreigner is but another reminder of the ease to this continent such a large percentage of foreigners have become, and of the trouble, turmoil and anxiety they are capable of stirring up.

This is not meant as a blanket condemnation of all foreigners. Not at all. Some of those who have fitted in nicely to the scheme of things here, and have contributed largely to the 'levelment' of our limitless vacant spaces, have been foreigners. At the same time it cannot be denied that during the past few years the number of this element which has been causing all kinds of trouble, has been growing at an alarming rate, and in most cases they have been recent arrivals to this continent.

This situation should be a warning to our immigration authorities. They should see to it that in future all foreigners landing on these shores should be put through a rigid mental test before allowing them at large.

Another element which should take a warning from the many attempts at violence of so many of these foreigners, is the glib-tongued soap box orators, who, by their extravagant statements, extreme criticism of all in authority and revolutionary attitude towards everything but what they are advocating, incite these subnormal creatures into such a frenzy that they think they must go out and kill somebody or do something desperate. Of course this is just what these spell-binders want so long as they can sneak away and hide after they have set the match to the stubble.

For this reason it is a good thing the Federal Parliament gave the six months hold to the resolution asking for the deletion of section 98 in the criminal code; a section which gives domestic authorities wide powers to combat those who advocate force and violence.—Ex.

IF WE WERE ROOSEVELT

If we were Roosevelt, our first act would be to call in all revolvers, prohibit the manufacture and sale, and then dismiss that bodyguard of detectives. Not more than one man in ten thousand needs a revolver and he would not need it if no one else had one. A revolver is of no use to a bank manager or teller, but it is to a bank bandit. It is of no use to any man who wants to live and let live, but it is to the man who wants to commit suicide or murder. It has but little use in war. It has none in peace.—Col. Hugh Clark.

For a government which is making a profit from handling liquor to prohibit liquor advertising would appear rather inconsistent. In Alberta its only purpose could be to reduce the revenues of Alberta publishers; for the provincial government has no control over the postal service, and could not prevent the printing of circulars outside of the province, or advertising in papers published outside the province, and sending them through the mails to residents of Alberta.—Ex.

If Canadian firms will quote their prices in sterling instead of dollars, there is an opportunity for extending their trade considerably in British Guiana, declared S. de Caires, head of one of the large commission brokerage firms in Georgetown, British Guiana, which handles business of important Canadian companies in that part of the Empire in South America. Mr. de Caires arrived recently from British Guiana on one of the Canadian National steamships "Ladyliners" and before coming to Halifax, visited Montreal. He believes not that the new tariff against non-British goods has gone into effect in British Guiana there is a great potential market there for Canadian goods as also in the British West Indies.

one of the chief obstacles to successful revolution.—Toronto Mail and Empire.

BLAIRMORE UNITED CHURCH
Rev. Albert E. Larke, Minister.

"Serve the Church that the Church May Serve You."

Services for Sunday, March 12, the minister in charge:

11 a.m.—SENIOR SCHOOL.

2 p.m.—JUNIOR SCHOOL.

7.15 p.m.—SONG SERV. CE.

7.30 p.m.—PUBLIC WORSHIP.

"FATHER-AND-SON" SERVICE. Sermon: "What is the Worth of a Boy to the Community?" The fathers of our boys are cordially invited to attend the service and sit with their boys on Sunday evening next. The boys are asked to be responsible for bringing Dad along—see that you invite him. The service does not exclude mothers and daughters and other adults. All are invited to the service.

SOME REASONS WHY SOME MEN MAKE SUCCESSFUL FATHERS

THEY BELIEVE that being a father is the greatest privilege given to any man and so take their fatherhood seriously.

THEY ARE CONVINCED that it is worth while to study boy behavior, as well as the stock market, the baseball score or the trend of politics. They have become convinced that they need such study in the business of being fathers.

IN ADDITION to providing their families with the greatest comfort, they give them also generously of themselves—often at great personal inconvenience and cost of time and money, but always counting on a high as among their very best investments.

THEY ENCOURAGE the boys to develop some hobby; also to take part in directed games, as being the most effective antidote to evil thoughts and temptations.

THEY ARE PROFOUNDLY IMPRESSED with their duty to the boys, as well as their responsibility to society; and as good citizens, try earnestly to discharge both obligations.

THEY COUNT IT a duty and a privilege to give the boys, step by step, the intimate information they need concerning the vital facts of life. THEY STRIVE ALWAYS to teach their boys that manly character is not only desirable, but it also pays.

THEY ARE REAL SPORTS, these fathers, and play the old "game of life" for all that is in them, but play according to the rules that every boy understands as "best square."

THEIR INSTRUCTIONS are always of the positive sort—and backed up by personal demonstration. They despise "don'ts," while "making" is strictly against their principles.

THEY BELIEVE that cleanliness is next to Godliness and practice it consistently themselves—inside and out—and to their material benefit.

THEY UNDERSTAND PERFECTLY that success in dealing with boys is only by "guidance"—not by "drill."

THEY BELIEVE that the practice of brutal thrashing belongs to the Savage Past; that reason and self-control, if started early and followed consistently, are much more efficacious in producing quality boyhood.

THEY BELIEVE that it is a far greater thing for a boy to make a life than to make a living, and that what a boy is, is after all his only claim to greatness—and train their boys accordingly.—F. H. CHELEY.

ST. LUKE'S CHURCH NOTES
Rev. A. S. Partington, B.A., Rector

Services Sunday, March 12th, 2nd

Sunday in Lent:

Sunday school, 10 a.m. 1st

Evening service at 7.30 p.m.

Service every Wednesday evening at 7.30 p.m. during Lent.

CORRESPONDENCE

The Editor,
The Blairmore Enterprise.

Dear Sir:—In the Calgary Herald of Friday, March 3rd, there appeared an open letter in the name of Robert Horne, of Blairmore, dealing with "The Situation in the Crows' Nest Pass," in which the writer seeks to place responsibility upon the shoulders of Rev. A. S. Partington and myself for the spread of atheism. We are also accused of having done much to intensify the unfortunate strike situation. I do not know Mr. Horne, nor has he ever spoken to me. His conferees Frank Leary, Rock Sudworth and Harvey Murphy, with whom I have at times quite frankly discussed the situation, would, I think, admit the injustice and untruthfulness of his accusations so far as they refer to myself. I would therefore appreciate space in your paper to make reply.

1. We are blamed for the increase of atheism in the Pass and we are challenged to debate on "The causes of atheism in the Crows' Nest Pass."

Well, I am not convinced in my own mind that there is an alarming increase of atheism among individuals at the present time, among the miners of the Pass. Undoubtedly there is a trend in that direction and some advance is being made, but it grows not out of the local situation, for which two ministers are being held responsible, but out of the promotion of the principles of Communism by means of organized teaching through the Workers' Unity League, the M.W.U.C. and the activities of the Young Communist Leagues and the Miners' Children's Clubs.

Atheism is an integral part of Communist propaganda, hence its promoters in the Crows' Nest Pass. But by atheism, the Communists throughout the world mean a disbelief in certain conceptions of God, for which conceptions the organized churches are not entirely free from blame. It was the God who was identified in the thinking of the masses with an autocratic, Czarist, capitalistic church who became the object of attack and hence hatred in Russia. The organized church in the world today is continually challenged to distinguish between God the Reality, the Supreme Being of the Universe, on the one hand, and man's faulty concepts of God on the other hand. Too often we err in that we create God in the image of our own limited thoughts, forms and declare Him to be no more than that. But God is greater than men conceive Him to be, and man's disbelief in God does not banish Him from the Universe.

If the Communists in the Crows' Nest Pass are consistently in unity with the beliefs of their party throughout the world, and remain free to propagate their teaching in the Pass, then it will necessarily follow that atheism, as I have defined it, will increase. Christian people in the Pass may to some extent counteract it by positive, aggressive Christian living and Christian education; but therein lies the great weakness. Christian people themselves are not sufficiently leaving the community with a way of life which is convincing to non-Christians. Too many people deplore Communism and want to crush it ruthlessly, but they do not realize that their most effective weapon in combating atheism and other Communist beliefs they do not favor is Christian character. If the nature of God were fully grasped by all of God's children, I do not think there would be any atheists in the world. Further, the churches in Canada are today challenged to demonstrate a Christian spirit of such quality that its impact may be a sufficient force to make it impossible for atheism to survive in any attempt to build a new Social Order.

2. We are also accused of having "fanned our churches open for 'scab' meetings; and having given our little prestige to help starve the anti-moderates into submission."

By the term "scab" Mr. Horne means those miners who opposed the side represented by Mr. Horne in their endeavor to force recognition of

the Mine Workers' Union of Canada on the part of the operators. My reply is that at no time was Mr. Partington's church or club-room open to the Moderates for their meetings. Once only in the United Church at

Coleman was a meeting held by the moderates. On that occasion neither myself as minister nor the session of the church were consulted, nor did we have knowledge of such gathering until the men gathered there, having obtained permission from one or two moderates who were on the United church board of managers. The meeting was transferred from the club-room to the church when the leaders were informed that the club-room was needed for Girls' Group activities.

Having said this, however, I make no denial of the fact that my sympathies during the strike were on the side of the moderates, and for the following reasons:

1. The strike was not a struggle between the miners, as a group, on one side, and the operators as employers on the other side. Had there been a definite proposal in writing to reduce wages, or had there been a fight to secure safety devices lacking in the mine, then the entire body of miners would have stood out solidly against the operators; and they would have received the sympathetic support of many of the citizens, because a wage reduction would have worked great hardship upon miners working at the best but eight to twelve shifts per month. Yet it must be said that the operators have done well to keep so many men employed on short time, when less men could mine the coal at hand, and man's faulty concepts of God on the other hand. Too often we err in that we create God in the image of our own limited thoughts, forms and declare Him to be no more than that. But God is greater than men conceive Him to be, and man's disbelief in God does not banish Him from the Universe.

2. It was, however, a struggle between one group of miners who fought for recognition of the M.W.U.C., and the "moderate" group of miners who did not want this Union recognized. The Mine Workers' Union of Canada was affiliated with the Workers' Unity League, which is an avowed Communist organization. Hence the main issue in the strike was that between Communism and non-Communism; though it must be clearly understood that not all the men on the Communist side were

"Reds" by conviction. There were some who fought for the right of the men to organize under whatever union they pleased, and this group did not fully realize the consequences of the affiliation of the M.W.U.C. with the Workers' Unity League. It was therefore only natural that the operators should be found supporting the moderates in their efforts to break with the M.W.U.C., even though those same moderates might, on other issues, find themselves opposed to the operators.

If it can be said that certain unfair conditions existing in the mine were responsible for the strike, my reply is that these troubles were not made the main issue in the strike; though they undoubtedly played a part in the dissatisfaction which was manifest. But in my judgment the men were not, to quote Mr. Horne, striking against "intolerable mining conditions." Had this been the case, I would have championed the promoters of the strike; had this been the case the miners would have stood solidly against the operators.

It followed then, that the citizens of the Pass, apart from the miners' groups, were strongly on the side of the "moderate" miners; not because they were taking sides in a wage dispute as between employee and em-

ployer, but because they recognized the need for a stand on the side of law and order as opposed to "militant Communism."

3. Yet having clearly stated that my sympathies were with the moderates, I have no hesitation in saying that at no time did I adopt a belligerent attitude toward the non-moderates. Mr. Horne cannot prove that my statements on the Citizens' League platform were unjust or unfair to their side. I have repeatedly maintained that I was opposed to the present capitalistic system, but I differ with the Communists as to the means whereby the change may be brought about. The moderate group, without a doubt, are opposed to capitalism, but they also believe in change by consent rather than by force; by talism, but they also believe in change by consent, rather than by force—by evolution and not by revolution and bosses.

4. Never was my stand more clearly taken than in Bellevue last summer. The moderates had for a long time been subject to great provocation at the hands of their opponents. Yet when, one evening, the moderates decided to take matters into their own hands and determined to retaliate with force, I used my influence to dissuade them against taking the law into their own hands. In this I failed. But after both groups had assembled on the football field at a mass meeting called by the non-moderates, and a clash between both groups seemed imminent and unavoidable, I climbed on to the platform, where Harvey Murphy continued standing, and pleaded with the moderates to consider the inevitable outcome of their intended action. I pointed out that if the initiative were taken by that evening, the officers of the law must inevitably hold them responsible for the outcome, despite their previous provocation when the moderates had attempted to hold meetings. I was given a hearing, and afterwards both sides admitted that my action averted bloodshed and the possibility of women and children being trampled in the clash.

At that time I left no doubt as to my stand in behalf of a new social order. I declared my entire agreement with the views expressed by the Alberta Conference of the United Church in their "Industrial Relations" resolution of 1931. I still adhere to the principles of that resolution. Strange to say, however, as the result of the stand I took that night I alienated the leaders of the Blairmore moderates. Only a few days ago one of the leaders declared himself as opposed to continued co-operation with the Blairmore Citizens' League on the ground of the stand which I, as an official of that body, took last summer. So the non-moderates who would agree with Mr. Horne have nothing but condemnation for my actions, and the Blairmore moderates, or some of them, would blame me for siding with their opponents. What a life! 'Twas ever thus.

(Rev.) ALBERT E. LARKE,
Blairmore, Alberta.

The K.P. grand lodge is in session at Calgary. Harry Sommers is representing the local lodge.

Mayor Cermak, of Chicago, who was shot by Zangara, who attempted the life of President-elect Roosevelt, passed away at an early hour on Monday morning.

Bellevue First Aid Association took their exams on Sunday afternoon. Out of a class of sixty, twenty-eight were examined. The examiners were Dr. Rose, Hillcrest; M. H. Congdon, I. Evans and A. Vejprava, Blairmore. The following candidates were examined: for junior certificate—Richard LaPlaca, Frank Siskoff; for certificate—Joseph Budda, Anthony Costanzo, Alexander Morris, Gerald McIntyre, Vernon Truitt, Alfred Price, Clifford Padgett, Frederick Radford; foroucher—Leslie Cousens, Laddie Koran, Norman Evans, Bramwell Goodwin, Harry Jepson, Charles Johnson, Simon Raymaeker, John Raymaeker, Albert Hovan; for medallion—William Cox, Stanley Goodwin, Joseph McIntyre, Samuel Radford; for label—Joseph Morris, Joseph Strauch, Elton Pagnucco, James Radford, Jr. (second label). Messrs Ben Milnes and Fred Padgett instructed the class throughout the winter.

Mr. and Mrs. E. Haglund, of Waterton, spent the week end in town visiting friends.

Two very interesting games of basketball were played in the United church gymnasium on Monday evening, when the Blairmore Comets played the local girls, the score being 21 to 15 in favor of the locals. Blairmore Trail Rangers and the local Scouts played the second game, with the Scouts taking all the honors. Fire and Battel played the second half for Blairmore, and the game's end.

on a real footing. The final score was 34-17 in favor of the Scouts.

Mr. and Mrs. George Gordon, junior, are rejoicing over the arrival of a daughter on Tuesday morning.

Miss Emma McDonald, of Gadsdill school, spent the week end in town with her parents.

COWLEY HAPPENINGS

After residing in Cowley for a few years, Mrs. Lawrence Robertson has moved to James McLeod's ranch, where her husband has employment. Mrs. Robert Littleton entertained the Busy Bee Club at her home on Tuesday night.

A community whist drive was held in the Masonic hall on Wednesday evening, when prizes were won as follows: ladies' first, Miss Nellie McWilliams; consolation, Mrs. Billie R. Tson; gents' first, Harry Pratto; consolation, Douglas McWilliams. The movie prize, donated by Joe Wilson, was won by Mr. Haglund. The drawing for the lovely quilt and cushion, offered by the Ladies Auxiliary, was won by Mrs. Scott, with a ticket which she purchased some time before her death, which occurred a week ago Monday, and, strange to say, all materials for making these two articles were donated by Mrs. Scott. The quilt and cushion will be handed to her sister, Mrs. Tench. On this occasion, Mrs. Gerild Bradshaw was hostess for the evening, with Mr. Bradshaw acting as master of ceremonies.

Joe Wilson has returned from spending several months at Armstrong, B.C., looking much improved in health for his stay there.

LOOKING AT THE NEWS WITH COL. HUGH CLARK

Once upon a time an international banker lent a lot of money to foreign countries. When times became bad he granted postponement of payments until times became worse, when he notified his debtors they would have to pay up on the due dates and in gold.

We can't get gold, said they. You must give me its equivalent then, said he.

What is its equivalent? American dollars. How much will an American dollar cost us?

That depends. Anywhere from a \$1.15 to \$1.50.

We shall have to sell some stuff here to enable us to buy your dollars. But you can't do that. We don't allow that in our country.

What are we to do then? That's up to you.

No its up to you. You are the creditor and if you want your money you must not make payment impossible.

And there the matter rests until debtors and creditors go into a huddle to see a way out.

One cannot be too careful in giving evidence in court and yet—Well there is the case of the wife of a university professor who had studiously prepared to answer any question which the most inquisitive lawyer might ask. After leaving the box she was observed closely scanning her note book. The case was about over when she rose and asked to be recalled as she had given a wrong answer to one question. Following an hour's argument between opposing counsel as to its admissibility, terminating in the judge's ruling that he would have to hear what it was before he could say whether it was material and admissible, she was recalled and declared as follows: When counsel for the plaintiff asked me my age, I said 38. But that was wrong. That is my bust measurement.

Alberta's fur trade is expanding, according to the results of fur sales, four of which already have been held this season. Ermine is forming a large part of the fur being sent in, 1,400 pelts being offered at the last sale. Last year more than 262,000 pelts of ermine were sent out of the province. This figure is expected to pass the 300,000 mark this season.

"Most divorce suits are home-spun," remarks an exchange. Out of the yarns hubby brought home, we presume.

The Philmath basketball team was defeated at Bellevue on Monday night last, while the Y.P. girls defeated Riverside girls and the Y.P. boys, were defeated by Bellevue Riverside.

Hon. Vincent Massey, former Canadian minister to Washington, will represent the Canadian general council of the Boy Scouts' Association at the annual meeting of the Boy Scouts of America, at Kansas City, Mo., in June.

A young radio announcer came home tired, after a long day in the studio. The family gathered for dinner. The radio guy bowed his head to ask the blessing and all was quiet. "This is Mr. Jones speaking," he began.

The number of single unemployed registered with the provincial relief commission since November totals 7895, according to a report of the commission. Of this number nearly 1,000 have been placed on farms under the plan recently announced. Over 64 per cent of the registered were foreign born, 24.28 per cent being Canadians, and 21.63 per cent British born. Native Albertans total only 3.23 per cent.

The Coleman Journal remarks: The "Drys" in Alberta are again badgering for abolition of the beer parlors and the banning of advertising of liquor. They would again drive the traffic into underground channels, thereby bringing back those evil which the re-opening of beer parlors and government liquor stores was calculated to minimize. Hi-jacking and rotten liquor are vivid memories. Legalized sale of liquors has practically eliminated these evils, and the buyer has protection in the quality of the stuff sold.—Ex.

INCOME TAX RETURNS

Government of Alberta

Important Notice

Income Tax Returns under the Provincial Income Tax are now due and should be filed with the Supt. of Income Tax Qu'Appelle Bldg., Edmonton before March 31st, 1933.

Forms may be procured from any Provincial government office or from any bank or direct from the Superintendent of Income Tax, Edmonton.

All persons residing, employed or carrying on business in Alberta are liable to a tax on Income subject to the exemptions provided for in the Act.

Full information re exemption and method of filing returns is contained on the forms themselves. Avoid penalty by filing now. Further information will be furnished on application to Income Tax Branch, Qu'Appelle Building, Edmonton.

HON. R. G. REID,
Provincial Treasurer.

E. M. GUNDERSON,
Supt. of Income Tax

The dominion census bureau estimated that there were 91,605 occupied farms in Alberta in 1932, compared with 97,400 shown by the census taken in 1931.

The University of Alberta, established in the year 1908, will celebrate its twenty-fifth anniversary at the conclusion of the present term in May.

Since the death of Mayor Cermak, of Chicago, Giuseppe Zangara, under sentence of eighty years for manslaughter, has been indicted on the further charge of murder in the first degree. Conviction carries the death penalty by electrocution.

An attempt will be made by the trustees of over 4,000 school districts of the Province of Saskatchewan to enable all school children under their charge to attend the World's Grain sir. Those scheduled to take place at Regina in July of this summer.

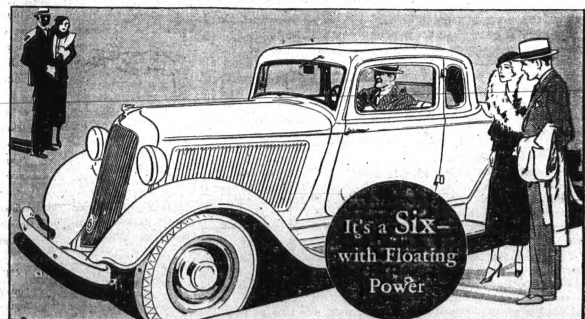

Since the organization of Scouting in the United States, each succeeding president has served as honorary president of the Boy Scouts Association.

More than a million and a half pounds of buffalo meat have been marketed during the past few months, product of the buffalo park at Waterton, according to figures issued by the Canadian National Railway.

A recent statistical report shows that there are 21 publicly operated high schools having libraries in the province. The average number of books in each is 883, which compares well with other provinces of the Dominion.

Magistrate: "You are accused of stealing a chicken. Anything to say?" Prisoner: "I just took it for a laugh." Magistrate: "No resemblance, whatever. Ten days."

This Time Plymouth sets the Pace!

New Models displayed in our Showroom Today

BEFORE you buy a car in the low-price field, we sincerely urge you to "Look at All Three!"
We do this with confidence... for this time Plymouth sets the pace for all Three! Again, Plymouth has stepped out ahead in style. With a distinctive new big car look!
Plymouth has stepped out in performance... with a six-cylinder Floating Power

engine... 70 horse power, Downdraft Carburetion... with FLOATING POWER—the modern miracle of vibrationless smoothness!
It has stepped out in safety with Hydraulic Brakes, a new Rigid-X Frame, and Safety-Steel bodies! And VALUE! Come in today and see what you can now buy for the price of any low price car!

"Fresh from the Gardens"

Welcome Announcements.

The recent statement by Premier Bennett in the House of Commons in which he outlined the attitude of himself and his Government on the subject of reciprocal trade relations with the United States, and in which he declared that the United States was Canada's natural market, constitutes, not only an announcement of great interest and importance, but it has the effect of removing, at least so far as the principle involved is concerned, this particular phase of the tariff question from the realm of partisan politics. Differences of opinion as to details of any such trade arrangement may exist or develop between the two great political parties in this country, but, so far as the question of the desirability of such an arrangement, it has now been quite plain that there is no difference of opinion.

To all those who feel that the important question of the tariff should, as far as possible, be removed from the arena of partisan political controversy, this unanimity of view will be most gratifying, as well as a most hopeful sign that at no distant date a marked improvement in the trade relations of these two great countries, having so many things in common, and divided only by an imaginary boundary line, will be effected.

Premier Bennett made his momentous announcement when speaking to a resolution moved by a Liberal member, and which was worded as follows: "That, in the opinion of this House, it is expedient that the Government of Canada re-open negotiations with the Government of the United States of America with a view of bringing about a satisfactory reciprocal trade agreement between Canada and the United States whereby the natural products of Canada, that is the products of the sea, the farm, the mines, and the forests, and including fish, lumber, wheat, cattle, etc., should have free entry into the United States in exchange for the admission of certain goods from the United States of America, which in the interests of both countries may be admitted into Canada, free from customs tariffs."

Almost equal in its importance to Premier Bennett's statement, is the announcement contained in press despatches that the new Administration at Washington, under the guidance of President Roosevelt, proposes to make overtures to the Canadian Government looking to the negotiation of such a trade agreement or treaty, if, indeed, such overtures have not already been tentatively made.

Canadians generally will welcome these new developments, and nowhere will they be received with greater goodwill, and with sincere hopes that success will attend such negotiations, than in the provinces of Western Canada. Unquestionably, the continent of North America is one economic unit, however it may be divided politically and nationally. Nature made it so geographically and climatically.

The United States can supply Canada with many things we do not, and cannot, produce for ourselves—cotton, tropical and semi-tropical fruits, anthracite coal, many articles of manufacture, to mention only a few items. On the other hand, the United States stands in need of enormous quantities of other natural products which Canada can supply in abundance. Why, then, should both countries erect barriers against the natural exchange of such commodities to the disadvantage of both?

Here in Western Canada we can raise tens of thousands of head of range cattle, but we are handicapped in finishing them for market, including the British market, and are at a distinct disadvantage in competing with the Argentine. But the United States raises enormous quantities of corn for feeding purposes. What is more natural than that Western Canada should ship thousands upon thousands of stocker cattle to the corn states to the south to be fattened for market? Both countries would profit thereby.

Why should the Maritime Provinces be forced to look for markets long distances inland in Ontario and Quebec, even in the West, with the rich markets of the great cities along the U.S. Atlantic seaboard right at hand and easily and cheaply reached by water transportation? Why should Ontario, lacking coal supplies of its own, be denied free and cheap access to the great coalfields immediately to the south but in the United States? Why should either country criticize the natural flow of trade north and south, fighting geography in an uneconomical fashion, while striving for markets thousands of miles away?

If it now admitted, almost universally, that the troubles which today beset the world are almost entirely of our own making, the result of our own blindness and stupidity, and not the fault of an all-wise Providence nor the breakdown of the immutable laws of Nature?

Canada and the United States have set the world an object lesson for more than one hundred years of an undefined boundary line thousands of miles in extent. We have shown the nations of the world how international relations should be conducted so as to avoid all physical warfare. Can we not also show the world, in its present time of distress, how international economic relations should be governed so as to avoid economic warfare?

Assuredly we can, if we will. And it is because we should do so that these announcements of the past few weeks are so welcome, so promising of great betterment for the peoples of both countries. And to us in Canada, especially welcome as indicating a unity of desire and policy on the part of all our political parties in the advancement of the common good and economic welfare of this Dominion.

Canada's Shoe Industry

One of the Canadian industries to show increased production in 1932 was the leather boot and shoe factories. A corresponding decline was shown in imports of these commodities. In 1932 Canadian factories produced 17,879,218 pairs, while imports totalled only 345,965 pairs.

Great Britain has the highest taxation; France comes second and Germany third.

A \$4,250,000 paper mill is being built at Ellersmere, England.

Dog Runs Elevator

"Bal," a German police dog, has mastered the mysteries of elevator operation. He visits his owner, Robert Mullen, daily in a Denver office building, using his nose to push the button that sets the automatic elevator in operation. He also makes occasional visits to other tenants in the building, going from floor to floor up attended via elevator.

So rapidly has post-war ship design developed that a modern 40,000-ton liner costs less to run to Montreal than a 20,000-ton 30-year old rival.

Headaches and Dizzy Spells Nerves in Bad Condition

Mr. Neil Crawford, Hamilton, Ont., writes: "My nerves were in such bad condition I found it almost impossible to get a good night's sleep. I was also bothered with headaches and dizzy spells. I tried many different remedies, but they did not seem to give me much relief, but after I had taken Milburn's Heart and Nerve Pills I could hardly believe the change they had made in my condition."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Hamilton, Ont.

Electric Eye Records

Activity Of Housewife

Information Obtained By U.S. Bureau Of Home Economics

For each member of her family, the average housewife makes 18 trips a day to the kitchen sink, according to a February issue of the American Journal of Home Economics. Each time she goes to the sink, the article shows, she spends, on an average, one minute.

Thus, the homemaker in a family of five will average 90 trips daily to the sink and will work there for an hour and a half. A photo-electric eye was used to help record every trip made, together with the time spent at the sink. The U.S. Bureau of Home Economics was asked to make this study by the chairman of the committee on kitchens of the president's conference on home building and home ownership, and it received outside co-operation.

An analysis of the study shows that in the Washington, D.C., housewives in whose kitchens the photo-electric eye was placed, spent from 38 to 153 minutes at the sink each day, while the number of trips varied from 32 to 217. The reasons for such variations, according to the article, can be determined only by more detailed studies. The definite factual data hitherto unavailable in such studies should make possible more definite conclusions as to the comparative efficiency of different types of kitchen arrangement, Dr. Stanley says.

Rich Gold Strike

New South African Field Opens Up Great Possibilities

Another great gold strike—possibly equal to past rushes which helped end former depressions—was described to the American Institute of Mining and Metallurgical Engineers.

One-eighth of the world's present gold production is the estimate, though not yet proven, capacity of this new field, the Consolidated Goldfields, South Africa. This dazzling estimate was reported by F. W. Lee, supervising engineer, geophysical supervising engineer, geophysical supervising engineer, United States Bureau of Mines, Washington.

It caps several weeks of reports in inside circles of New York engineers that the new South African field might produce enough gold to start the ball rolling toward world prosperity.

Lee told the story of how the new scientific "diving rod," the magnetometer, located the ore.

"The greatest outstanding achievements of the year," said Mr. Lee, "was made by the engineers in the Consolidated goldfields. Here the sub-outcrop of the main reef series was traced from Middleville through properties of the Westward area, a distance of from 30 to 40 miles."

Long Gas Line

Proposed To Build Gas Line From Alberta To the Coast

The findings of the Alberta conservation commission is expected to have a bearing upon the plans of oil syndicates to construct a pipe line through to the coast to supply the cities of Vancouver in British Columbia, and of Spokane, Seattle and Tacoma in the state of Washington, with natural gas, it was stated by William C. Fisher of Calgary.

"This is not a visionary project," said Mr. Fisher. "The findings of the conservation commission will determine the extent of the gas pressure in the Turner Valley area."

"If it is proved that the field can guarantee a 20-year supply, there should be nothing to hinder the proposed gas pipeline to the coast for the supply of cheap natural gas."

Catalogues Human Diseases

Retina Of Eye Affected By Any Abnormal Condition

Practically every disease common to man, says Dr. Clarence R. Ellis, of the Ohio State University applied optics department, can be diagnosed by an examination of the retina of the eye.

Any abnormal condition, he explained, affects the retina immediately—particularly such diseases as brain tumors, heart trouble, cancer and inflammation of the liver.

The chief cause of eye trouble, he added, is the use of too powerful light bulbs in reading lamps.

Canada's acreage in field crops increased from 15.6 million in 1930 to nearly 58 million in 1931, or by approximately 272 per cent.

Ninety per cent of the world's clothing is made of cotton.

People of Denmark are against the idea of using silver in coins.

Robe Proved Good Mascot

Gift Of Maori Chief Treasured By British Admiral

Admiral Sir Lionel Halsey, controller and treasurer to the Prince of Wales, told the Authors' Club at London, England, of a New Zealand "kivi" robe which he wore whenever he fought in action during the Great War.

The garment, a kind of kilt made of flax, was given to him by a Maori chief when he was in command of the battle cruiser "New Zealand," the "New Zealand" went on a cruise to the dominion. One chief, after being shown over the ship, gave him the "kivi" robe and asked him to promise that whenever he took the ship into action he would wear it. He told him that it had been worn by his forebears in war, but that it would never be required in that country again.

On August 28, 1914, when the action of Heligoland was fought, Sir Lionel said he wore the robe in the scorching tower, and he added that when he took the ship into action the "kivi" robe was worn by him.

After this the garment was looked upon as a mascot. On Jan. 24, 1915, the "New Zealand" fought the German ship "Blucher," which was sunk. Again he wore the "kivi" with the same result, the "New Zealand" receiving no damage whatever.

In May, 1915, he left the "New Zealand" to Captain, later Admiral, Sir John Green. He handed over the "kivi" to his successor and in the Battle of Jutland Captain Green wore it when he took the ship into action.

Two ships in his own line were blown up and sunk, but the "New Zealand" received practically no damage whatever. After the war, Sir Lionel added the garment was returned to him and it was one of his most treasured possessions.

Another Use For Radio

Fever Machine Is Newest Treatment For Certain Diseases

A "fever machine" which treats disease by the power of radio waves to raise the temperature of the body was demonstrated before the American College of Physicians at Montreal.

It is a new application of radio, treating disease instead of sending messages, and was reported by Dr. Walter M. Simpson of Dayton, Ohio. The machine is used in treating diseases that are sometimes cured and often improved by producing artificial "fevers" in the body. Among these diseases are general paresis, a form of paralysis that attacks many insane persons, some forms of arthritis, a disease of the joints, and diseases that affect the bodily extremities—arms and legs, feet and hands.

The fever machine is a short-wave radio transmitter, which "broadcasts" 30-meter radio waves through the patient from large metal plates.

Orient Buying Wheat

Shipments From Canada This Season Total 8,814,011 Bushels

Steadily increasing demand in the Orient for wheat is instanced by the fact that Canada has shipped 8,814,011 bushels to China and Japan so far this season. This is 677,413 bushels greater than consignments at this time last year, and it is believed final figures will exceed last year's mark by more than a million bushels.

The demand up to the end of March for the Orient are 366,666 bushels. Only the lower grades are wanted, and Australia, near at hand, has been getting the lion's share of the business.

A Mark Twain Story

When Mark Twain was a young and struggling newspaper writer a lady of his acquaintance saw him one day looking at a shop window, with a cigar box under his arm. "Mr. Clemens," she said, "I always see you with a cigar box under your arm. I am afraid you are smoking too much." "It isn't that," said Mark Twain. "I'm moving again!"

A machine in the coast and geologic survey office at Washington, D.C., can predict the tide for any place in the world, at any hour, for centuries to come.

Art Competition

Manitoba and Quebec Student Architects Won Awards

Manitoba and Quebec student architects won awards in the Royal Architectural Institute of Canada competitions, result of which were announced recently.

Leonie Desgagne, Ecole Des Beaux-Arts, Quebec, won first prize in the class "A" project, in which 53 designs were submitted, and Eric Thrift University of Manitoba, was awarded first prize in class "B" project. Forty-nine designs were submitted for the latter class.

Maurice Gervais, Ecole Des Beaux-Arts, Montreal, won second in class "A" project; G. R. Whale, University of Toronto, was third, and William Sheets, University of Manitoba, received honorable mention.

In class "B" Lowell Wallace, University of Manitoba, was second, and I. M. Saunders, University of Toronto, third. The University of Alberta had one design entered in the class "A" project and eight in class "B" but won no prizes.

The jury of award consisted of: H. L. Featherstonough, Montreal; Lucien Vautrin, Montreal; Wilfrid Lecroix, Quebec; John M. Lyle, Toronto; and H. J. Burden, Toronto.

Aviator Was Popular

Took Fresh Vegetables To Arctic Miners In Severe Weather

Leigh Brintnell, president of MacKenzie Airway Services, Limited, was the most popular man in the Great Bear Lake mineral fields on New Year's Day.

With the thermometer hovering at 60 below the zero mark Brintnell swooped down with a load of 500 pounds of fresh vegetables from Edmonton for mining men at the Eldorado holdings.

After a diet of canned goods and meat for several weeks the vegetables brought by Brintnell were a welcome addition to the larder of the hardy winterbound miners.

The Edmonton pilot's boat is that of a long flight from Edmonton to Great Bear Lake, under most severe weather conditions without having a single head of lettuce or as much as a tomato frozen. A special heating device, designed by Brintnell, was installed in the cabin of his machine.

Stratosphere Plane

Prof. Piccard Believes He Can Build a Plane That Will Cruise Upper Spaces At High Speed

Prof. August Piccard, explorer of space 10,000 miles above the earth, is convinced he can build an airplane capable of flying through the stratosphere at 500 miles an hour.

The statement came in answer to a question by Dr. John Carruthers, secretary of the Los Angeles University of International Relations, as to whether the Swiss scientist thought he could construct such a plane if he were furnished \$500,000 for the purpose.

"I believe I could do so within a year and a half," he said. "And in my opinion the stratosphere plane is a thing of the not very distant future."

Professor Piccard last August ascended to an altitude of 10,405 miles in a special balloon to obtain experimental data on cosmic rays.

Canadian Egg Inspection

In 1931 the Egg Grading Service of the Department of Agriculture inspected 789,919 cases of eggs. In addition to the regular work of inspection by approval, the inspection staff makes approximately 10,000 calls annually on wholesale and retail dealers throughout the country. This is for the purpose of checking up outgoing shipments of deliveries, the purchase of current receipts from producers, country store-keepers and jobbers, and giving instructions and direction in candling and grading in accordance with the Canadian Standards.

A patent for a medical compound is obtained only in rare instances in the United States.

The Jig-Saw Puzzle

Demand In the United States Still Ahead Of Supply

Americans bought jig-saw puzzles to the amount of \$10,000,000 in 1932, an increase of 70 per cent, over 1931. More than 2,000,000 persons purchased interlocking jig-saw puzzles, that require real skill. More than 15,000,000 solved the simpler cut-out puzzles, stamped, not sawed. This growth in the puzzle craze has given employment to more than 20,000.

The enthusiasm for home entertainment has been reflected in a 20 to 50 per cent increase in sales of all parlor games, tops, horse race sets, roulette, table tennis, bee bees and several games.

Although several hundred manufacturers have entered the cut-out puzzle field in the last few months, demand is still ahead of the market. The release of the cheaper puzzles has educated a vast new army of puzzle addicts who graduate to more difficult varieties. Manufacturers estimate that the jig-saw puzzles have been increased 30 per cent, in intricacy to meet the new vogue. Some puzzles have as many as 1,800 pieces.

Old fashioned designs featuring Colonial costumes, hunting scenes, copies of famous paintings, etc., still are the most popular, although there is a vogue for comics.

Proposes Revised Dollar

Professor Leacock Suggests Reducing Gold Content To Seventeen Grains

Proposal to re-establish the redeemable gold standard with a dollar of 17 grains of gold instead of the present 23 was made by Prof. Stephen Leacock, head of McGill University's political economy department, in a speech before the Empire Club at Toronto.

This, he claimed, would cause immediate rise in prices and stimulate production of all sorts. "The gold once the Canadian mite," he explained, "would be taken as the basis of a paper currency redeemable in gold at 17 grains to the dollar. The \$60,000,000 now produced annually would represent \$80,000,000 in the new dollar and could be used to carry \$240,000,000 worth of paper. Of this, one-third would pay the mine owners."

Immunity From Plagues

Better Sanitation and Public Health Legislation Stamps Out Disease

One of the most important of all developments in the last 32 years has been in sanitation and public health, affecting the lives of everybody. It is not so far back when towns and cities had well water, generally polluted with its accompaniment of typhoid fever outbreaks. There were also diphtheria epidemics while smallpox was not at all unknown in virulent form in many communities. Immunity has been won from three plagues to mankind—St. Catharines Standard.

Appliance For Railroads

"Any sudden depression in a railway track is instantly detected and marked on a chart while the train is passing over it by a new appliance designed by an Australian inventor. It does away with the need of a daily inspection of the line.

A three-day census shows 4,000 homeless men, women and children in Cleveland.

UNITED ACTION IS NEEDED TO SAVE COUNTRY

Ottawa.—Recovery from economic stagnation can come only from unity of action and unity of action could be made possible, or at least hastened, by a National government, Sir Arthur Currie, principal of McGill University, Montreal, said at a gathering of McGill Ottawa Valley graduates.

"All our scattered forces must be combined to lead us out of the morass of doubt and even despair," said Sir Arthur. "It is extremely doubtful, in my judgment, if our desired objective can be reached by a politically divided country."

"Unity of all, for the good of all, would seem to be our surest and safest guiding force. We had to meet a national emergency 16 years ago. We met it with unity. In that troublous time all party prejudices, badges and slogans were forgotten or submerged and as a people we moved forward in one solid front to victory, not otherwise could we have found success."

The present situation was more perplexing and serious than that of 1917, said the distinguished soldier and educationist. It was time prejudices, badges and slogans were forgotten in a united effort to move towards prosperity, security and stability.

"There is stagnant industry," he said, "tottering business, distress, despair, all urgently demanding redress. And redress can come only from unity of action which can be made possible, or at least hastened, I believe, by a national government, representative of all the forces and all the thought of the country."

"The establishment of such a power would mean sacrifices, a spirit of give and take, a measure of temporary compromise. But in the end it would succeed. In the past one of our political weaknesses has been the fact we are all interested in voting for or against someone, rather than for or against something."

No criticism of any party, group or policy was to be implied from his views, Sir Arthur stated. The times called for strength, and the times called for a common objective, rehabilitation. Surely men of ordinarily divergent views could agree on the need of immediate action.

If the depression continued there was a danger of all sorts of quick remedies being accepted, applied through ignorance and hysteria, he went on. Canada had emerged from one foot's paradise and should be careful not to grope her way into another "following a will-of-the-wisp guide."

Bill Goes To Senate

Federal House Passes Measure Extending Ten Per Cent Salary Cut
Ottawa, Ont.—The bill to extend the civil service salary reduction for another year passed today in the House of Commons and was sent to the senate. The measure continues the 10 per cent reduction in the salaries of civil servants and members of parliament until the end of the fiscal year 1933-34.

About 60,000 people would be affected by the 10 per cent salary reduction, Hon. E. N. Rhodes, minister of finance, said. In addition to 13,000 casual employees and postmasters of small centres operating on a commission basis, the following public servants would be affected:

Salaries below \$2,000—16,068.
Salaries between \$2,000-\$2,000—22,745.
Salaries between \$2,001-\$3,000—6,123.
Salaries between \$3,001-\$4,000—1,879.
Salaries between \$4,001-\$5,000—461.
Salaries over \$5,000—215.

Royalty Sees First Talkie

London, Eng.—The king and queen have seen their first talking movie and apparently enjoyed it. It was the premiere of the screen version of J. B. Priestley's "The Good Companions" shown as a benefit for the unemployment relief fund. The performance was declared a great success, the proceeds totalling about \$40,000.

Predicts U.S.-Jap War

Richmond, Va.—Assessing that the United States and Japan inevitably will meet in a future war, General William Mitchell, former chief of America's army air service, recommended the mobilization of air power in Alaska.

Indian Goes Modern

Now Taking His Place In Affairs Beside the White Man

Ottawa, Ont.—The Indian has gone modern, entering professions, graduating from universities and taking his place beside the white man in business and high finance, Hon. T. G. Murphy, Minister of the Interior, told the House of Commons today. But the Indian retains all his willpower and adroitness—he often refuses to become a nationalized Canadian, subject to legal action and taxes. The Indian, as the ward of the Dominion pays no taxes, has no vote, cannot be sued in a civil court and "is quite enough to want to stay that way."

That was the reason, said Mr. Murphy, why the government sought power to compel Indians to be franchised—so they would assume the responsibilities as well as the privileges of citizenship.

For the entire sitting the House discussed the Indian and his problems. Liberals objecting to the compulsory enfranchisement provisions of the government legislation.

Premier R. B. Bennett finally poured out the troubled waters by urging a change would be made in the system of enfranchisement—a board consisting of a representative of the Indian tribe, a representative of the Indian Department at Ottawa and a county court judge, would be established to review each application.

Studying Income Tax Law

Government Seeks Workable System To Cover Bearers Bonds

Ottawa, Ont.—The quest for a workable system of enforcing the income tax upon income derived from bearer bonds continues.

The proposal to apply a flat rate of four per cent on all interest coupons presented to the banks for payment has lost ground heavily in the past few days. It is claimed that to adopt such a policy would be to invite wealthy citizens with liquid assets to invest these assets in bearer bonds and reduce their income tax rate to four per cent.

Another proposal, which has now been put forward which is, understood, is meeting with a more favorable reception by the cabinet. This plan is to compel all persons cashing interest coupons to make out a certificate of ownership. The certificate would be given to them by the banks when the coupons were presented for payment. In addition to declaring ownership, the bond holders would have to sign an affidavit declaring the income concerned had been shown on their tax statement. The certificates and affidavits would be forwarded to Ottawa and checked against the tax statements.

Price Remains the Same

Radio License Will Be Two Dollars For Another Year

Ottawa, Ont.—Radio licenses will remain at the \$2 figure for another year, Hon. Alfred Durnan announced in the House of Commons. At the same time he expressed the hope that the government would limit programs to advertisement produced in Canadian goods or to Canadian non-advertising programs.

The House "went on the air" discussing radio estimates of the Department of Marine and taking in a wide range of topics. No decision had been taken, the minister said on the system of collecting receiving licenses this year although the object was to force every owner to pay his fee.

Mr. Durnan said the department this year would be paid for 100,000 more radio licenses at \$2 less the 40 cents commission, under the house to house canvass system.

Health Insurance

Edmonton, Alberta.—Only by a contributory health insurance scheme can adequate state medical services for all Alberta people be secured, according to the state medicine committee's report, tabled in the Alberta legislature by Hon. George Hoadley, minister of health.

May Amend Game Act

Edmonton, Alberta.—Government bill to amend the Alberta Game Act, if accepted by the Alberta legislature will permit farmers to shoot game birds anywhere in the province without a license. At present the farmer can only shoot game birds on his own property without a license.

World Postal Congress

Ottawa, Ont.—Executive of the world postal union will meet in Ottawa from May 18 to June 29, to pre-congress to be held in Cairo, Egypt, congress to be held in Cairo, Egypt, next February.

Protest Arms Embargo

Should Be Limited To Aggressor Opinion Of China

Nanking, China.—It was officially announced that China was making representations in London in connection with the British arms embargo against China and Japan.

Spokesman for the Chinese National Government foreign office said any Far East arms embargo should be limited to the aggressor warring war on China. "It is a colossal blunder and it will have absolutely no effect on the present hostilities."

Toko, Japan.—Great Britain's announcement of an arms embargo against Japan and China was interpreted by Japanese authorities as meaning a handicap for China only. In official and business circles there was uneasiness lest the embargo be put out to be only the first instance of pressure against Japan, with the possibility of eventual economic sanctions.

Fine For Honeymooners

Mussolini Cuts Railway Fares For Newly Weds

Rome, Italy.—Honeymooners have been streaming into Rome at the rate of 2,000 couples a month since Mussolini granted them reduced railroad rates.

The order cutting 70 per cent. off newlyweds' fares from anywhere in Italy has been in force seven months. In that time 14,000 couples have visited the capital.

Pope Pius has received practically all of the visitors. He gives each bride a rosary and each bridegroom a religious medal.

GERMANY TO TAKE MEANS TO SUPPRESS REDS

Berlin, Germany.—Hermann Goering, minister without portfolio in the German government, declared in a speech that the incendiary fire at the reichstag building was meant to inaugurate a series of violent acts culminating in a Communist revolution.

For this reason, he asserted, the government was justified in promulgating its drastic measures of the last few days, which have already increased penalties for treason and have placed Germany under virtual martial law.

Captain Goering declared the lives of Communists and Socialists were not endangered so long as they kept strictly within the law.

The Chancellor Hitler, addressing a delegation of Nazi workers, promised to ameliorate the lot of the German workman so that Communist arguments no longer would draw him.

The nation-wide process of squelching Communist influence unabated, with hundreds of leading Communists undergoing arrests, while many others fled into hiding.

Extensive precautions were resorted to for the protection of railways, bridges and power stations. Numerous armed guards were posted.

Squads of armed storm troops in the brown Nazi uniform can be seen at any time marching through Berlin streets on auxiliary police duty.

About 3,000 are in service here. Throughout Prussia there are about 60,000 of them.

ARGENTINE TRADE MISSION IN ENGLAND

Dr. Julio Roca, Vice-President of the Argentine, is shown with General Sir Charles Harrington, G.O.C., when he visited the Aldershot Command in Hampshire. Dr. Roca is in England at the head of the Argentine Trade Mission seeking trade treaties with the Mother Country.

CALLED TO BAR

Lady Chatterjee, wife of Sir Atul Chatterjee, head of the Indian delegation which came to Ottawa, to the Economic Conference last summer, has been called to the British Bar at Lincoln's Inn. Lady Chatterjee has been studying law for a number of years.

Millionaire Released

Chas. Boettcher, Kidnapped February 12, Is Freed By Abductors

Denver, Col.—Chief of Police Albert T. Clark announced that Charles Boettcher, 2nd, heir to millions, who was kidnapped February 12, had been released by his abductors and that no ransom had been paid.

Chief Clark said the 31-year-old broker was released from a motor car and immediately communicated with the home of his father, Claude K. Boettcher. He was taken to the elder Boettcher's home and the chief of police rushed there to question him.

Clark said young Boettcher was in good condition when released. Details of the release were not immediately available, but Clark said Boettcher had been released from the car on the outskirts of the city. Clark said he did not have full details of the release, but reiterated that no ransom had been paid.

Boettcher, prominent young Denver broker and member of one of the city's wealthiest families, was abducted by two men from the garage at his home Sunday night, February 12, and held for \$80,000 ransom.

New Motor Law

Bill Introduced In Saskatchewan Legislature For Protection Of The Public

Regina, Sask.—Motorists responsible for an accident will have their licenses taken away until they pay any judgments rendered between \$100 and \$1,000 for property loss, \$5,000 for the death of one person or \$10,000 for two or more deaths, according to a bill brought into the legislature by Hon. A. C. Stewart, minister of highways.

The proposed act also provides proof of financial responsibility before an auto license is issued to any person under 21 or over 65 years of age, or anyone held responsible for a motor accident.

Saskatchewan's proposed law on financial responsibility of motor owners and drivers is modelled after Ontario's law.

The proposed act does not deny the plaintiff in any motor accident case from proceeding for remedy under any other section of the law.

Banning Allegiance Oath

De Valera In Position To Force Removal From Constitution

Dublin, Irish Free State.—In sixty days the oath of allegiance to the British crown will vanish from the constitution of the Irish Free State and become a dead letter in the Anglo-Irish treaty.

The Dail Eireann passed by a vote of 75 to 40 a government bill abolishing the oath of allegiance to the British crown. The measure now goes to the senate.

The constitution provides that bills which the senate refuses to pass in such a manner as to satisfy the lower House will, at the expiration of 18 months, become law despite the senate.

In the event the bill is dissolved in the meantime, the waiting period is shortened to 80 days.

After the 1932 elections, when Mr. De Valera found himself heading the government for the first time he immediately attempted to remove the oath. He was blocked by the senate. He is now in a position to force removal of the oath but it is still faced with a possibility that this move will fail to satisfy left wing extremists, including the old Sinn Fein.

Royal Assent Given Bill

Authority Granted Manitoba To Borrow For Financing Relief

Winnipeg, Man.—Authority for Manitoba to borrow money for the financing of unemployment relief and to lend money to municipalities for their share of relief costs, was granted the province when Premier John Bracken's bill was given royal assent.

Although the act as it was amended by Mr. Bracken provides for the province borrowing money without specifying the source of the loan, Premier Bracken served notice on the House that later in the session the members will be asked to unanimously request the Dominion to make loans to the province.

Gun Running Plot

Seizure Of Machine Guns In Vancouver Leads Police To Investigate

Vancouver, B.C.—Seizure by police of six machine guns, disassembled and expertly packed in the back of a parked automobile and more than 100,000 rounds of ammunition, has led officers to investigate the possible existence of an international gun-running plot centering in Vancouver.

Authorities are attempting to trace the origin of the guns, convinced they were designed for shipment to China to be used in operation there against the Japanese. No local trouble, police point out, could possibly call for the use of such a formidable array of guns and large amount of ammunition.

RAILWAYS WILL MAKE USE OF AUTO TRUCKS

Montreal, Que.—An important development in freight services on the Canadian National and Canadian Pacific Railways will provide door-to-door pickup and delivery of freight shipments without extra cost to either shipper or consignee, was announced jointly by George Stephen, vice-president in charge of traffic of the Canadian Pacific Railway, and Alistair Fraser, K.C., acting vice-president in charge of traffic of the Canadian National Railways.

The two railways, the announcement stated, had completed contracts with approximately 45 trucking firms at cities and towns served by their lines in western Ontario, between Toronto and Windsor and Toronto and Sarnia, whereby pickup and delivery service will be provided for shippers at no extra cost. New tariffs embracing this feature will become effective this week.

The railways, it was emphasized, are not entering the trucking business. As some pickup points affected by the new tariffs, they already have contracts with cartage firms for pickup and delivery of freight.

Under the present plan, however, this service is extended, by arrangement with local trucking contractors, to points where pickup and delivery service did not previously exist.

The new door-to-door consignment system will improve the service offered at such points and will make use, under contract, of existing cartage services instead of involving the organization of new facilities for that purpose.

JAPANESE ARMY BREAKS DOWN CHINESE DEFENSE

Chinchow, Manchuria.—Japan's invading force has broken through the strongest Chinese defense, less than 75 miles from Jehol city.

The 16th infantry under General Tadaishi Kawahara poured into Lingyuan, passed through without stopping, captured the town of Sutaoling, a few miles west, and kept right on to Pekung, on the motor highway which leads to the capital.

General Kunio Matsuda, commanding the 11th infantry, moved down from the north, having captured Chienping, to join General Kenesuke Mogi's fourth division which was waiting at Chienping.

The cavalry took Chienping without a fight, when they came within sight of the city of Shi Wen-Hua, the Chinese commander already had hoisted the flags of Japan and Manchukuo. Apparently he was willing to throw in his lot with General Mogi and join in the final advance against Jehol city.

Despatches from that capital said two Japanese planes had bombed the new airbase near the city. All through the previous stages of the advance air raids have preceded the attack of the main force.

General Tsung Yu-Lin, provincial governor of Jehol, has given no sign of his intentions. The Japanese still hope he will surrender.

The worst of the fighting in the mountains apparently is over but there have been skirmishes, some of them heavy, indicating that the broken Chinese forces are worrying the Japanese flank.

Part of the advancing forces are moving west along fairly good roads by motor truck and armored cars from Lingyuan. Despatches reaching here indicated that should the resistance encountered in the next few days be no more serious than that already overcome, the Japanese will make good their prediction that Jehol city will fall before another week has passed.

Death Of J. B. Campbell

Was Father Of Proprietor Of Edmonton Bulletin and Regina Daily Star

Vancouver, B.C.—J. B. Campbell, 79, for a quarter of a century shipping master of Vancouver harbor, is dead. He had been ill for four months. Born in Woodville, Victoria County, Ontario, John Bell Campbell came to Vancouver in 1898. Besides his long public service in the federal marine department here, he was seaman for Ward for six years.

Charles E. Campbell, proprietor of the Edmonton "Bulletin" and Regina "Star," is his only surviving son. His wife survives him and there are three grandchildren. Three brothers, P. G. Charles and G. L. Campbell, resident in Vancouver and a fourth brother, Archibald, in Toronto, also survives.

May Require Lights

Toronto, Ont.—Pedestrians in Ontario may or may not be required to carry lights when walking on the city's highway. A bill sponsored by W. E. N. Sinclair, K.C., House Liberal leader, which would require the walkers to light up was sent to the legal committee of the House for further consideration.

Dividends Run Into Millions

Toronto, Ont.—Despite adverse business conditions dividends to be paid in March by Canadian companies may exceed \$15,000,000 when all declarations are made. At present some 43 companies have declared dividends and there are a few more which usually make payments in March.

May Close High Schools

Calgary, Alberta.—Closing of Calgary high schools may occur unless the city can find a way out of its present financial predicament, it is understood. Struck severely by declining revenue following the depression's appearance, the city is forced to every economy. Primary schools would not be shut down.

No Recent Loans Made

Winnipeg, Man.—Loans have been made by the Dominion government to the provinces, including Manitoba, but none have been made since April, 1932, for direct unemployment relief, stated Premier John Bracken in the legislature. Neither had loans been made in respect of the municipalities' share of the expenditure.

Local and General Items

Henry Gibeau has returned to Burma from a visit to Sam Gebo at Luscar.

C. Sartoris, of the Blairmore Motors, has a new Plymouth on display and demonstration in his showroom, just west of the Safeway store.

The gas service station being erected in East Blairmore, is by Messrs. Peel and Headach, and not C. Sartoris, as mentioned in our last issue.

In the list of floral tributes to the late Mrs. Fines, in our last issue, the names of Mr. and Mrs. E. Elliott and Jean, Kinbley (spray) were inadvertently omitted.

When we hear of a man's character being injured through being branded as a "Red," we wonder if branding a man a "Dry" wouldn't have the same effect.

"Inefficiency" was given as a reason for dismissal of several Blairmore town officials. Wonder if "Efficiency" is really to be a required qualification for their successors.

The regular meeting of Crows' Nest Chapter, I.O.G.E., will be held at the home of Mrs. W. W. Scott on Monday evening, March 13th, at 7:30. The executive will meet at 7:15 of the same evening.

Mr. and Mrs. Harry Drew, of Pincher Creek, are very happy in the good news of a grandson, born to Mr. and Mrs. Charles Carnell (nee Miss Lillian Drew) in the St. Joseph's hospital, Three Rivers, Quebec, recently.

Mr. and Mrs. George Kellock, of Coleman, announce the marriage of their daughter, Agnes Penman Kellock, to Mr. John Charles Pratt, son of Mr. and Mrs. Charles Pratt, of Medicine Hat, on February the 14th, at Noranda, Quebec.

In the election of councillors for Divisions 2 and 3 of the Castle River Municipal District No. 4, held on February the 25th, Harry Truitt was elected for Division 2, and Harry Dickens for Division 3, the latter defeating Frank Holmes by five votes.

Blairmore's fire chief no doubt would never have been threatened with ousting had he attended twenty-four or more fires in the year. The unfortunate thing was that we only had six fires. Maybe the fire chief's successor will have to guarantee that there'll be more of 'em.

The Luscar Indians defeated the Gleichen Gunners, thereby winning the Alberta intermediate championship. They are this week end battling against Kimberley, British Columbia champs, two games on Medicine Hat ice, the opener tonight, and second game Saturday night. Albertan's feel confident Luscar can win.

The public were pleased to note from Mayor Knight's manifesto that on one point at least he agrees that God was about right. No doubt but, after all powers on earth have been severely dealt with, the Blairmore council's last act will be to give the Divine Being an overhauling. Honestly, it's the biggest council we've ever had!

W. Bond, of Lethbridge, is relieving Mr. Corbett at the local customs house. Mr. Corbett is on sick leave, and left last week end for Vancouver, and left last week end for Vancouver. Word has been received from Vancouver, stating that examination is proceeding at St. Paul's hospital and also X-Ray examination, and that doctor will report at early date.

A traveller whose curiosity led him to analyse the names in the timetable published by the Canadian National Railways, comments on the oddness of some of the names which appear in it. Among them are Charcoal, Petrol, Glass, Jelly, Water Tank, Solid Comfort, Paradise Hill and Ha Ha Bay. The shortest one-syllable names include Ens and Ops.

Dull Headaches Gone

Simple Remedy Does It

Headaches caused by constipation are gone after one dose of Adierika. This cleans all poisons out of BOTH upper and lower bowels. Gives better sleep, ends nervousness. Blairmore Pharmacy.

BASKETBALL SEMI-FINALS

Semi-final basketball playoffs will take place at the local Columbus hall tomorrow evening, when the Blairmore Columbus Club Cyclones will encounter the Raymond Idlers in a sudden-death game, preceded by a preliminary game by 8 o'clock.

BLAIRMORE PUBLIC LIBRARY

Books being placed on the shelves this week are:

"The Ship of Truth," Lettie Ulpha Cooper; "The Great Jasper," Fulton Oursler; "The Brentons," Anna Chapin Ray; "The Old Man," Eugene MacLean; "Over the Footlights," Stephen Leacock; "All to Seek," Diana Patrick; "Bulldog Carney," W. A. Fraser; "Findings in Keeping," John Boyd Clarke; "Transactions of the Canadian Mining Institute, Volumes XVI, XIX, XX, XXII, XXIII, XXV."

The library hours are Tuesdays and Thursdays from 7 to 9 p.m., and Saturdays from 7 to 10 p.m. The fee is \$1.00 per year for residents and \$2.00 per year for non-residents.

CROWS' NEST PASS GOLF ASSOCIATION REORGANIZES

At the annual meeting of the Crows' Nest Pass Golf Association, held here on March the 1st, the following officers were elected: G. A. Vissac, Blairmore, honorary president; J. Thornton, Hillcrest, president; J. A. McLeod, Coleman, and Frank J. Smith, Hillcrest, vice-presidents; Wm. Kerr, Bellevue, captain; W. L. Rippon, Coleman, secretary-treasurer; W. Goddard, J. B. Wilson and M. G. Rhys, Blairmore, and G. Pattinson, Coleman, executive committee.

Question of date of the annual tournament to be held this year in Blairmore was considered, and same will be announced next week by the executive.

WHIST DRIVE—Auspices: Boy Scouts, Scout headquarters, 8 p.m., Monday, March 27th. Good prizes. Admission 25c.

Mrs. Jollette Houbrigs left by motor on Saturday for Calgary, after spending the week with Mr. and Mrs. L. Houbrigs.

EYES EXAMINED at the Blairmore Pharmacy on Saturday afternoon, March 11th, E. J. ANDERSON, B. Sc., in attendance.

On Friday, February 24th, through the kindness and co-operation of the proprietor, J. F. Smith, the girls of the staff at the Cosmopolitan hotel, entertained around 70 of their friends at a party in the dining-room. Visitors were present from points between Fernie and Lethbridge.

A very successful tea and sale of home cooking was conducted in the Lodge hall yesterday afternoon by the members of Crowview Rebekah Lodge, followed by a whist drive at 3 o'clock, at which the following were prize winners: ladies' first, Mrs. W. McVey; second, Mrs. B. Sessler; gent's first, Mrs. William Patterson; second, B. Sessler. Mrs. Fern held the lucky ticket for the mystery box.

Through The Enterprise, the Blairmore Juveniles wish to thank the following for donations this winter: R. Thompson, \$2.50; J. Rudd, W. Goddard, T. Duncan, J. Milne, T. Allen, J. F. Smith, J. Kubik, A. Morency, J. A. Kerr, R. Rinaldi, \$1.00 each; Miss E. Kidd, Mar Poy, D. Lewis, M. Kubik, S. Trono, P. Chardon, M. Sartoris, F. Hottle, J. Corbett, R. Mills, 50 cents each, and the Blairmore Arena Co. for use of the ice during the season.
